Dear Murray,

Here is the actual record. Read it carefully. It says and means more.

The FBI made several mistakes in this, as did OPR.

OPR cited the wrong Serial.

FBI claimed exemptions on the other and intended record but did not withhold anything.

Made it all very confusing.

Les was working on something for Jack. Connected with the black-bag jobs. This may be of no interest to him. However, if you see him call the no-attribution part to his attention.

Always possible that something else may turn out to have value to him.

Best wishes,
